

Busy Week

Report for duty! We have a counting activity to complete.

Both Penny and I have had a very busy week. On Monday Penny flew 3 times in her jet aircraft and I flew my helicopter twice.

We have completed a flight chart for the week by colouring in the number of aircraft we flew each day. Can you work out how many times we have flown the rest of the week, we've completed Monday to help you out.

Can you write in this box the total number of times Penny the Pilot has flown her plane this week?

Can you write in this box the total number of times Peter the Pilot has flown his helicopter this week?
